# University Visit

University visits are an essential part of the college exploration process. They offer students a chance to gather information, interact with representatives, and make more informed decisions about their college choices. In order to help our students to become aware of the diverse options available to them, our school conducted a university visit on July 19 in the School Library and Exam Hall with over 20 Universities. By facilitating these visits, high school students get more insights into academic programmes, admission requirements, campus life, financial aid and other important aspects of the college experience. Our students interacted with the college representatives and got an opportunity to navigate themselves into the path of higher studies. It also encouraged them to work harder in their high school studies and extracurricular activities. The University visit was indeed a worthy session which reduced the anxiety of the students by providing them with the face to face opportunity to ask questions and seek guidance.
